- Auto notify when a car is sold
- Auto notify when a car is sold
- Auto notify when a car is sold
- Auto notify when a car is sold
- Auto notify when a car is sold
- Auto notify when a car is sold
- Auto notify when a car is sold
- Auto notify when a car is sold
- Auto notify when a car is sold
- Auto notify when a car is sold

What's New In My Garage?

My Garage Manager is a powerful and professional tool for managing your car collection. With a simple database engine, you can set up your cars and details easily, without using an application to store and organize your cars. It will work on most types of mobile devices, without use of USB, a sim card or local connection. So, put this database into your car and your garage... and never forget a detail again!

Features:

- Advanced search of your vehicles: you can search by brand, year, model, engine, accessories, modifications and find them by engine size, engine year or engine capacity.
- Set up your cars and details easily: you don't have to manually enter the information; My Garage Manager can save it for you, in your own database.
- Import details from a WAB file, a CSV file or your local database, or create your own list.
- You can add or edit cars and details easily, in a few clicks.
- You can manage your vehicle lists and details easily, without losing time, creating a personal contact list.
- You can import and export your lists from your mobile device, so you can update your car database from any device, using the internet.
- You can create sub-groups, or if you want, you can move your cars between your groups.

My Garage Manager is the only device that will help you manage and organize your car collection.

License: My Garage Manager is free, but for an additional subscription, you can add:

- Automatic payments
- Bank transfers
- Warranty card
- Extra vehicle details

Contact us: If you have any problems or suggestions, or if you want to ask a question, please email us or contact us via our facebook page.

My Garage Manager Screenshots My Garage Manager Reviews It's nice, but

it's not perfect 2 By 1337James This application has some cool features, but needs an update to get the best of it. Garage manger 5 By bpaj I really like this app. It's not too complicated to use, but has some cool features. I had to set up an account, but if you don't, it says it can't import your local car list and wont let you add a car. It's the most expensive garage manger in the app store, but I do think it's worth it. Helpful application 5 By stupendous Super helpful for organizing and tracking my garage. Great for the highway 5 By ND3420 I'm on my way to go visit my son in NC. I love this app. It shows me what I need to do to get back on the road. I just look at the distance

System Requirements:

Minimum: OS: Windows 7, Windows 8, Windows 8.1, Windows 10 (64-bit) Processor: 1.2 GHz, Dual Core Memory: 4 GB Hard Disk: 20 GB Graphics: 2 GB DirectX: Version 9.0 Network: Broadband Internet connection Sound Card: Compatible with DirectX 9.0 and 2CH Audio Interface.
