## Non Conventional Energy Resources Book By Hasan Saeed Free 46

July 16, 2019 - Sources of information on the prevalence of diabetes are not available. . maximum benefit for diabetes prevention.<sup>46,47</sup>. This is the main mistake - very often people, without access to information about diabetes, assume that the risk of getting sick is "only" slightly higher than for some. In this case, they themselves can be completely healthy. In fact, diabetes can lead to death! And this is not an exaggeration! The more people are aware of their risk, the more likely they are to pay more attention to diabetes prevention. Based on these figures, you can calculate how many people in the US can die from diabetes. .
