James Deen, the innovative multi-award winning director of such first-rate porn films as *Anal Acrobats*, *Staggered Striptease* and *Caramel Devil*, was brought in to make a big budget horror movie. After filming a scene with a young starlet and developing a sudden interest in her, he enlists her to help him in his twisted film making ventures. Jonny, a man struggling with writer's block, agrees to help his friend, Miffy (Eve Andreeff), rewrite her screenplay as a favor. While most stories are complete fiction, Miffy's tale starts to take on a twisted life of its own as events in her life are reflected in the pages of her story. But when she feels pressured to fulfill her original contract, she murders her character.

Jimmy (Alex Flynn) is the young, successful comedian in a struggling band. He has a great relationship with his girlfriend (Nadia Bjorlin), but is often distracted by his desire to be a famous musician.

Based on the European films written and directed by Jason Love, *Porn*, *Madness* and *Doom: The Great Big Cocksize War* is about the immense struggle between the penis and the vagina and the struggle between nature and civilization. Based on the French film, *A Perfect Day*, *Porn*
