- Share for Review: Now you can collaborate directly in Photoshop with collaborators and clients without having to leave the program. Using the Share for Review feature, you can publish and share your project with clients, collaborators, and people in Photoshop and across devices, so they can download and review images in your project and make changes so clients can immediately see the work. Photoshop Share for Review is available in Photoshop CC for desktop and accessible on the web on the Google Cloud Platform.
- Smart Scale: To make scaling your work easier and faster, Photoshop can intelligently resize, only crop and re-draw your image if it detects that the new Smart Scale feature makes assets and assets in multiple formats to be displayed automatically in the chosen size. This helps designers leverage their large library of assets for web project.
- Store for Web Preview: With the Store for Web Preview, you can now publish a U.S. PSD and deliver a ready-to-go website, share a link and the project instantly with your clients.
- Smart Sharpen: This new feature helps you increase the sharpness of your photos by analyzing your image and automatically adjusting it to get the most out of your camera.
- **Grainy Film:** Adjust the level of granularity you see in an image, so you can achieve a more filmic look with more than the default setting.
- **Type Mask:** Type a text mask on an image and insert text using the type tool. This helps you create a more professional graphic.
- **Place in Frame:** Place objects anywhere on a photo with this new feature.
- Link Layer: Quickly link an image file to another file in Photoshop CC.
- Drop Shadow: Drag and drop a Drop Shadow button from the Effects Panel or create your own. Select the shape or location over your image and adjust the color, opacity, and blur radius. Achieve any look with a variety of styles and effects from subtle to powerful.
